Keep your bib in its envelope till race day so you don't lose it or mix it up with someone else's

---

## Timing Chips

Two timing chips are attached to your bib, one on the front and another on the back. **Do not fold, crush or cover the chips.** They will record your time as you pass by, or under the readers.

---

**Starting area:** Located 800 metres from the car park, so please allow enough time to get there. You must pass through the start registration gate at the bottom left of the start paddock to register your timing chip.

---

## How to make sure you appear correctly in the results:

1. Wear your own bib. Not your partner's or child's!
  2. Stand up straight and ensure your bib is visible, as you cross the finish line. If wearing a pack, wear your bib over the pack.
- 

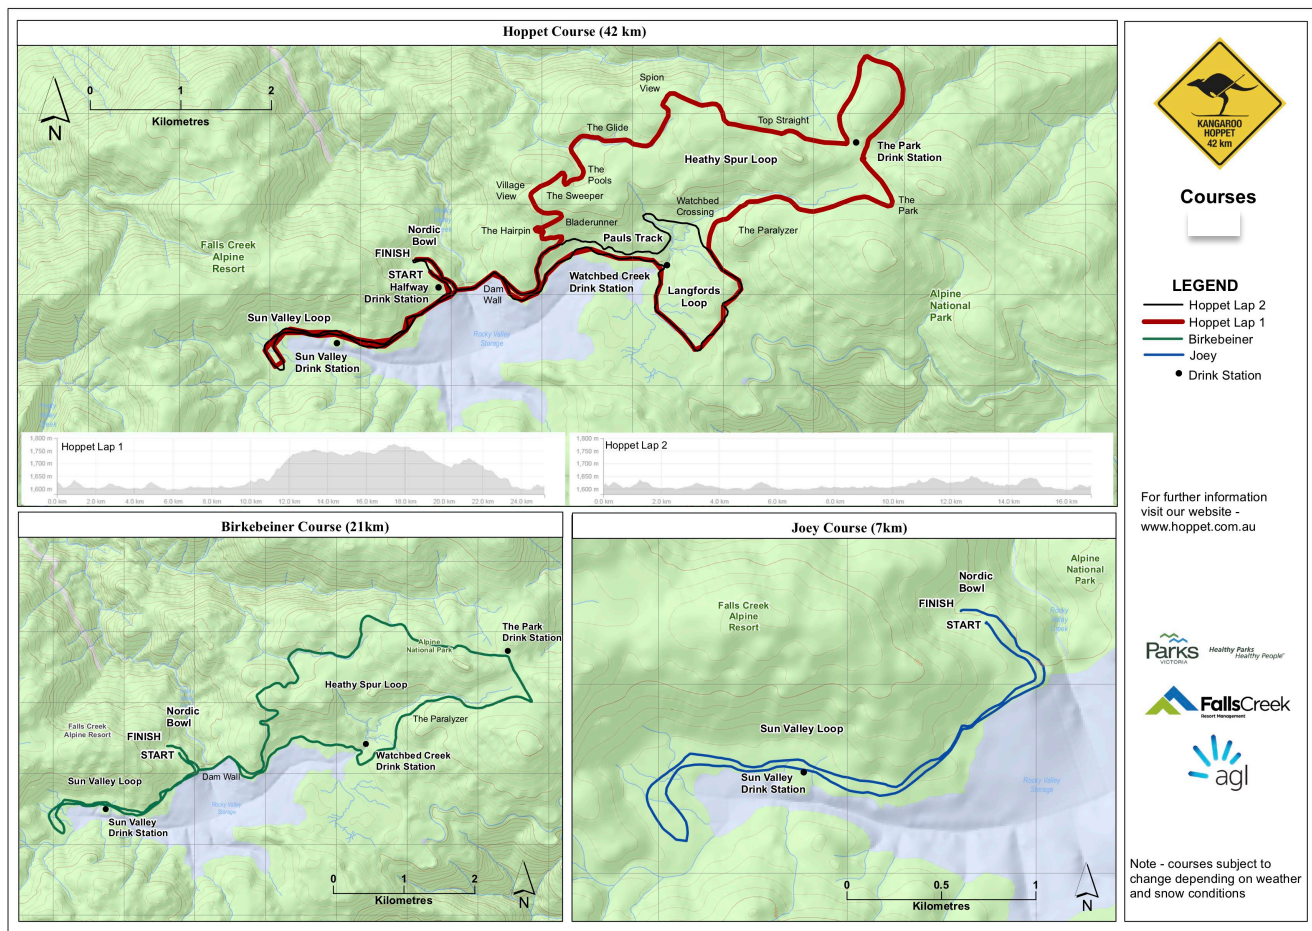

## How to help us avoid searching for missing skiers

If you don't complete the full course, tell the officials at the finish line that you have pulled out. Make sure they write down your number. We do not want to have an unnecessary search. Make sure you have provided a race day mobile phone contact number for you or a travelling companion so we can send you an emergency text if necessary.

---

**If you have a problem on the day, see the official in the Info/Passport tent in the Bowl.**

## The Course & Food Stations:

**NOTE:** The course is subject to change due to prevailing snow and weather conditions. Any changes to the course will be posted in Windy Corner Day Shelter, at the Hoppet Shop in Mt Beauty and on social media.

**Course Update 22/08/2025:** The course is looking great, with the full Kangaroo Hoppet course planned this year, excluding the Langfords Loop.

### Dam Wall Usage

For this year's event, the dam wall will be used for two-way traffic. Competitors must keep to their right when crossing.

Overtaking is prohibited unless it can be done safely and without impeding oncoming competitors.

Event officials will be actively managing the dam wall area, and all competitors must follow the instructions of officials at all times.

### New for this year:

The One/Way Hoppet sprint. New for this year is a sprint in the middle of the 42km race. All competitors in the main race will be timed over a short (about 100 metres) marked section of the track along the aqueduct just after they leave the Nordic Bowl for the second loop. These mid race sprints are a feature of many international Ski Classics races and are often won by skiers who finish out of the top ten. The fastest man and woman will receive a pair of One/Way ski poles.

Also new for this year, are 'Balance Point' awards sponsored by Fischer to the skiers who are the median place in each of the three events. These awards will be announced at the Saturday night presentations at Mountain Monk Brewery and skiers must be present to be eligible.

### **Start Times – Race Day Saturday August 23**

Starting in waves at one-minute intervals:

42km Kangaroo Hoppet **9.30am**

21km Birkebeiner **9.40am**

7km Joey **9.50am**

The start is seeded, with the fastest skiers (the first 30 bib numbers) standing on the front line. Skiers are grouped into start paddocks for groups of 100 (by bib number). Please enter the correct start paddock.

Each paddock will move up the hill in turn and start from the start line. Race times will be calculated from each wave's start time. Skiers in the shorter events will not be allowed into the start area until after the preceding event has started.

### **42km Kangaroo Hoppet Cut Off times:**

1. Half way (26km):1pm To ensure competitor safety, no-one will be allowed to continue past the 26km point after 1pm. The cut-off point will be halfway down the finish chute, Nordic bowl.
2. A second cut-off at **2 pm**, will apply at the near side of the dam wall.
3. An additional cut-off may be imposed by the race jury beyond the dam wall on the second lap if it is determined that there is a risk to the health of the competitor and/or event officials/volunteers.

Skiers who miss a cut-off may be credited with a Birkebeiner time and certificate.

---

### **21km Birkebeiner Cut Off time: 12.20pm** Paralyser/2 Pauls intersection

Any changes to the cut-off times and locations will be announced.

---

**Safety:** The event is run on the Bogong High Plains, a wilderness area without roads. Skiers must be prepared for sudden changes in weather conditions. Windproof and waterproof outer garments should be carried (in a bum-bag or pack) and worn if necessary. Should the weather imply too great a risk for skiers, the organisers hold the right to change, postpone or cancel the race at short notice in view of skier safety.

---

**Eye Protection / Sunscreen:** Sunglasses or goggles should be worn, and also 50+ sunscreen. At this altitude, severe eye damage, sunburn or windburn can occur if eyes and skin are not protected.
